Allergies: _____

Skillset offered to International Health Partners: _____

Previous experience in developing country: _____

Contact information in case of emergency:

Name(s) _____

Address _____

Telephone(s) _____

E-mail _____

Please write a paragraph explaining what your intentions are for volunteering at Nyakato and how you envision your skill-set being put to use by IHP.

Please also attach a copy of your CV or resume.

We especially appreciate people with experience in the building trades, i.e. carpenters, plumbers, roofers, electricians, masons, people that are just generally “handy.”

Please note that the following behavior is required of all of our volunteers:

Appropriate, culturally sensitive dress - **please see the FAQ page on our website, www.ihptz.org**.

Respectful behavior to all our staff. The cook is not your maid and you are expected to clean up after yourself, be at meals on time and advise the cook if you are not going to eat a particular meal (or you will be charged for it anyway).

Respect for other people’s privacy and needs for rest and/or quiet.

This is church property and a sense of decorum is needed.

Evening entertainment is very limited and often not safe. Do not expect to go out dancing and/or drinking as it is not safe unless you are accompanied by someone from our staff and asking them to do that is often an imposition.

Availability is limited due to sleeping accommodations and the number of clinicians available for teaching in the clinic.
